ABOUT ME

I am a versatile full-stack web developer and skilled WordPress developer. With expertise in both front-end and back-end technologies, I specialize in creating dynamic and responsive web applications, as well as customizing and optimizing WordPress sites for seamless user experiences.

EDUCATION

• **Punjab Group Of College 2018-2019**

FSc Pre-Engineering at Punjab Group of Colleges provides comprehensive education in physics, chemistry, and mathematics, laying a solid groundwork for advanced studies and careers in engineering and related fields.

• **Virtual University of Pakistan 2020-continue**

I am pursuing BS Software Engineering at Virtual University of Pakistan, gaining in-depth knowledge in software development, algorithms, and computer systems, preparing for a career in technology with a focus on innovation and problem-solving.

EXPERIENCE

• **Full-Stack Web-Developer 2020-2024**

I excel in full-stack web development, adeptly using Angular for dynamic front-end experiences and integrating WordPress APIs with Node.js/Express for robust back-end solutions, supported by MySQL and MongoDB databases for efficient data management.

• **WordPress 2022-2024**

I bring expertise in WordPress and Elementor Pro, adept at creating visually stunning and functional websites with seamless user experiences. I have extensive experience in WordPress and Elementor Pro, crafting highly customizable and visually appealing websites.
